

Bookmark Manager

Live Demo:

<https://bookmark-manager-tkfx.vercel.app/>

Features

- Add, edit, delete bookmarks
- URL validation
- Search filter
- Category tags
- Supabase database integration
- Fully deployed production app

Tech Stack

- Frontend: Next.js (App Router)
- Backend: Supabase (PostgreSQL + API)
- Deployment: Vercel
- Styling: CSS

Challenges Faced & Solutions

- Deployment 404 Error – Fixed by deploying from correct GitHub branch in Vercel.
- Supabase Login Issues – Updated Site URL and Redirect URL to match production domain.
- React Hook Error in Next.js – Added 'use client' to mark component as Client Component.
- NPM ENOENT Error – Executed npm commands inside correct project directory.

How to Run Locally

- `git clone`
- `cd bookmark-manager`
- `npm install`
- `npm run dev`
- Open `http://localhost:3000`
